

Financing local energy transitions:

Expert roundtable workshop on supporting energy transitions through green bonds

On 16–17 November 2021, the [SONNET project](#) is holding a targeted expert workshop, which will explore the potential, success stories, and challenges of innovative financing mechanisms like Community Municipal Bonds (CMBs), with a focus on how to use these green bonds to advance local energy transitions.

Those with experience in this topic, and/or who are keen to push forward such efforts in their own communities are invited to join, and engage in a site visit, discussions and hands-on exercises.

The workshop will be held at the [Knowle West Media Centre](#) in Bristol (UK), with a site visit to Filwood Community Centre, which is, through SONNET, exploring [making use of CMBs to invest in energy improvements](#). Travel reimbursement can be made available for participants upon request. The workshop can also be joined online (via Zoom) for those unable to travel to Bristol.

The workshop agenda follows (see below). To register to participate, click [here](#) or email info@sonnet-energy.eu.

The project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 837498.

Agenda

Day 1: roundtable | Tuesday, 16 November 2021

TIME (in Bristol)	PROGRAMME
